

## Getting a Tax Cut? Why Not Save It?

If you get a tax cut starting with your February pay, why not change or start a payroll deduction to save this increased amount? How about increasing or starting a Christmas Club account? If you don't have payroll deduction, do a direct deposit directly to DOY. Just tell your payroll department you would like to send a direct deposit to DOY. Give them the amount and the following information:

**Routing Number** - 241283204

**Account Number** - (your account#) 00 \*

*\* Make sure you place "00" after your account number so your deduction will deposit directly into your savings account.*
