

## Two Long Time Board Members Retire

It is hard to put into words the gratitude that we can express for the service two Board members (Jim Flickinger and Tom Voitus) gave to DOY for over two decades. Jim Flickinger joined the DOY Board twenty-eight years ago when DOY merged with United Engineering/Cold Metal Products. He served on various Board committees and positions. He became Board President in November of 2002, and has remained President until June of this year. Tom Voitus has been on the Board for twenty-three years also served on many committees and filled various Board positions. His latest position being vice-president that he served for several years. Both Jim and Tom have helped guide DOY through many years of growth and changes. Both have been instrumental in DOY's financial stability over the past two decades. When DOY assumed United Engineering/Cold Metal Products, the assets were just over 5.5 million. DOY is now nearly 50 million in assets. This is an average asset growth of nearly 1.75 million a year. Besides this steady and substantial growth, many changes were instituted during their tenure. In particular the moving from our Rayen Avenue Offices to the beautifully new constructed home office on Gypsy Lane in 2009. Both Jim and Tom will be missed but will always be remembered for their dedicated volunteer service to the DOY Federal Credit Union for over two decades.
