

Board Increases Dividends Again!

DOY experienced a strong first quarter. The loan portfolio increased over \$1,000,000, from last year. The rates on DOY's investment portfolio have also increased dramatically. At its March meeting, the DOY Board of Directors voted to retain the year-end bonus paid to members in December and increase dividends an additional 50 basis points across all tiers except institution accounts. DOY's upper tier is now earning 2.15%.
