

Interest Rates Unchanged

At its September meeting, the DOY Board of Directors voted to keep dividend rates the same as last quarter. This decision took into consideration expectations that the Federal Reserve Bank would continue to keep interest rates low. This will maintain DOY's rates as still some of the best rates in the area. The solution to keeping dividends high is for the members to borrow from DOY. With loan rates at their lowest level, now is the time to use DOY for your borrowing needs. Members can benefit from DOY's low rates on mortgage, auto, and signature loans. Call DOY for more information!
